The Home Secretary requires that the Club keeps a record of all firearms used by the membership.

You are required to complete this form. Please allocate each of your firearms a number, then enter the Calibre, Make, Type and Serial Number next to it (the number corresponds to a firearm you enter on the range register).

It is your responsibility to ensure the club is kept updated with any changes to your FAC/firearms registered. If you have no firearms, this form is still completed & returned (scribe a large diagonal line across the page).

Complete this form and return whenever you make changes and it must be completed annually, keep a copy of this form to remind you about the details you have registered with the club.
